Plus, like all Pro-Series uprights, the Zero uses metal components in the high-wear areas for rugged durability and keeps everything trapped in the vacuum with a HEPA Media filter and HEPA Media bag.

CLEANMAX™

CleanMax Pro-Series Vacuums by Tacony Corporation are built to stand up to the toughest cleaning challenges day after day. Metal components are used throughout the high-wear areas of the vacuum and the fan and motor are protected by the Clean Air System.

But durability is only part of the story. With Quick Draw on-board tools, the vacuum's powerful suction is available at your fingertips for above floor cleaning and the HEPA Media filter ensures what's captured by the vacuum stays in the vacuum.
